RALLY REBELS CLUB

DUAL MEET PARTNER

PLAYER GUIDE

OCPC x Rally Rebels Club Dual Meet

Everything players need to know before arriving, while waiting, during matches, and through the medal rounds.

SEPT 19	10:30 AM	5 COURTS
Saturday, 2026	First matches	Rally District PH

The simple version

Check in early, keep your pair nearby, watch the live court board, report when called, play the posted format, and confirm your score before leaving the court.

MATCH-DAY FLOW

What to do when you arrive

Give yourself enough time to settle in. The first scheduled matches begin at 10:30 AM, and court assignments may move as the day progresses.

1	Go to Player Check-In Tell the desk your full name and club. Staff will find your retained registration.
2	Confirm your details Verify your category, partner, and pair slot. Tell staff immediately if anything is incorrect.
3	Complete the arrival checks Sign the hardcopy waiver if needed. Staff will mark the waiver as verified and take a clear player photo.
4	Find your partner Both players should be present, warmed up, and ready together. A pair cannot start with only one player.
5	Watch the live court board Your posted time is a target. Listen for announcements and follow the current court order shown by Match Control.
6	Report when called Proceed to the assigned court promptly. If a referee is assigned, follow the referee's pre-match setup.

Bring these

Your paddle, court shoes, water, towel, any medicine you may need, and a phone for schedule updates. Wear your assigned club or event shirt if organizers have provided one.

TOURNAMENT FORMAT

How the dual meet works

This is club-versus-club play. During the round-robin phase, OCPC pairs play only Rally Rebels pairs. Partners from the same club do not face each other.

CATEGORY	OCPC	RALLY REBELS	MATCHES
Novice	6 pairs	6 pairs	30
Low Intermediate	6 pairs	7 pairs	35
High Intermediate	6 pairs	6 pairs	30
TOTAL	18 pairs	19 pairs	95

Why not everyone plays everyone

Each pair is capped at five scheduled opponents where possible. This keeps the event within the available time and prevents an overloaded day.

Balanced categories

In Novice and High Intermediate, every pair plays five of the six pairs from the other club. One opponent is omitted through the official draw.

Low Intermediate

All seven Rally Rebels pairs receive five matches. Most OCPC pairs receive six matches, while one OCPC pair receives five, giving 35 matches in the category.

Transparent opponent draw

The opponents that are not played are decided through the organizer's draw ceremony, not by personal choice. The draw starts blank, is revealed category by category, and is officially locked with a record after review.

Special fairness check

If the five-match OCPC Low Intermediate pair finishes in medal position, organizers may call a separate ranking-only playoff to confirm placement. That result is used only to settle the ranking and does not add another win to the club championship total.

COURTS AND SCHEDULE

How the day moves

Five courts run at the same time. The calendar is the live court board, so it shows both the planned order and what is actually happening now.

BEFORE 10:30	10:30 AM	THROUGH AFTERNOON	4:00-4:15 PM	BY 5:00 PM
Check-in, waiver, player photo, warm-up	First round-robin matches	Rolling court assignments across 95 matches	Direct medal matches begin	Results, club outcome, awards

Your posted time is a guide

Matches use 15-minute schedule slots. A game can finish early or run long, so the next match may move forward or be delayed.

Stay ready

Remain near the playing area when your match is approaching. Match Control may move a match to another vacant court to keep play moving.

Reading the live court board

- + Green means the court is on time or moving well.
- + Yellow means the court is approaching the expected match time or is beginning to run behind.
- + Red means the match is near or beyond the 15-minute operational target, or another urgent court status needs attention.
- + Player-conflict warnings stop a person from being scheduled on two courts at once and flag back-to-back matches where possible.
- + Match Control may move, swap, or bump scheduled boxes when real court timing changes. The live board is the final operational order.

Important

Do not leave the venue without telling your club captain or Match Control. If your pair is missing when called, the schedule for all five courts can be affected.

PLAYING RULES

Round-robin match rules

Scoring

Side-out scoring to 11. Only the serving team can score. Win by two, except at 10-10 the next deciding rally ends the match at 11-10 under this event's sudden-death rule.

Operational timing

The schedule expects about 15 minutes per match. The timer helps Match Control manage courts, but the valid finishing score decides the winner.

Before the first serve

For an officiated match, the referee runs a coin toss. No player needs to call heads or tails. The referee records which pair won, then confirms the opening server and court side.

FRONT

TOSS

BACK

Winner chooses one:

- Serve first
- Receive first
- Choose starting end
- Defer first choice

The referee records the choice before play.

During play

- + Even serving score: serve from the right side. Odd serving score: serve from the left side.
- + Round-robin matches do not allow team timeouts.
- + A medical timeout may last up to five minutes. Technical, referee, or equipment interruptions are handled by officials and Match Control.
- + When an interruption starts, the match timer pauses. It resumes when the interruption is officially ended.
- + Respect the referee's call. If no referee is assigned, both pairs are responsible for honest score calls and sportsmanlike play.

How to submit the result

Officiated match

The referee logs the live score. At the end, players review the final score and both sides confirm and sign on the referee device.

Unofficiated match

Both pairs report together to the score kiosk. Select the correct court and match, enter the final score, then both sides sign to confirm it.

Do not walk away before confirmation

The court is not fully closed until the score is accepted. If a score is wrong, tell Match Control immediately. Any later override is recorded with a warning and audit history.

STANDINGS AND MEDALS

How pairs qualify

Each category keeps separate standings for OCPC and Rally Rebels. Rankings are compared in the order below. The next item is used only when the earlier item is tied.

1	NUMBER OF WINS	The pair with more match wins ranks higher
2	POINTS FOR	If wins are tied, compare total points scored
3	POINTS AGAINST	If still tied, fewer total points allowed ranks higher
4	POINT DIFFERENTIAL	Points for minus points against; higher is better
5	HEAD-TO-HEAD	If the tied pairs played each other, their direct result decides

Direct medal pathway

There are no semifinals. The places earned within each club lead directly to the medal matches.

OCPC #1	vs	RALLY REBELS #1	GOLD / SILVER
OCPC #2	vs	RALLY REBELS #2	BRONZE / 4TH

Medal-match scoring

Side-out scoring to 15, no match timer, win by two, with the event cap applied at 19. If play reaches 19-19, one deciding rally determines the winner. Follow the official's final score-recording instruction.

Expected medal schedule

Novice: Court 1 bronze and Court 2 gold at 4:00 PM. Low Intermediate: Court 3 bronze and Court 4 gold at 4:00 PM. High Intermediate: Court 5 bronze and Court 2 gold at 4:15 PM. Live court conditions may adjust these assignments.

CLUB CHAMPIONSHIP

Every match helps your club

Each completed tournament match contributes to the club's overall win total. The club with the strongest final club standing is recognized as Champion Club.

Pair standings

Used to identify each club's #1 and #2 pairs in every category for the direct medal matches.

Club standings

Combines completed wins from all categories and shows the overall club race, point difference, and recent contributors.

Optional Dream Breaker

The Dream Breaker happens only if organizers activate it and enough time remains. It is a club team contest and is separate from the normal pair matches.

1	A coin toss decides the first choice and opening serve.
2	Default target is first to 52 using rally scoring. The organizer can adjust the target before play.
3	Every rally gives one point, no matter which club served.
4	After every four rallies, both clubs switch to their next captain-selected players.
5	At the default 52-point target, teams change court ends when a club reaches 26.
6	Dream Breaker points are added to the club championship only when this optional round is activated.

Captain responsibility

Dream Breaker pairs can be different from the regular tournament pairs. Captains choose the rotation, but each club must follow its declared sequence once play begins.

QUICK REFERENCE

Play ready. Stay informed. Confirm everything.

BEFORE PLAY

Check in, verify your category and partner, sign the waiver, have your photo taken, warm up, and watch the live board.

WHEN CALLED

Go to the assigned court with your partner. Confirm the correct opponent and whether a referee is assigned.

ROUND ROBIN

Side-out to 11. Win by two. At 10-10, the next deciding rally wins 11-10. No team timeouts.

AFTER PLAY

Review the final score. Both sides sign on the referee device or score kiosk. Do not leave until accepted.

IF SOMETHING IS WRONG

Stop and ask the referee or Match Control. Do not try to correct another court's device or schedule yourself.

SPORTSMANSHIP

Make honest calls, respect opponents and officials, keep the court safe, and represent your club well.

Final reminder

The live Match Control board and organizer announcements are the final source for court assignments and timing. Weather, match length, medical situations, or court operations may change the planned order.

**GOOD LUCK,
RALLY REBELS!**
