

OCPC x RALLY REBELS CLUB

Friendly Dual Meet Player Guide

Everything players need to know before arriving, while waiting, during matches, and through the medal rounds.

SEPT 19	9:00 AM	10:00 AM	5 COURTS
Saturday, 2026	Registration starts	Program starts	Rally District PH

The simple version

Check in early, keep your pair nearby, watch the live court board, report when called, play the posted format, and confirm your score before leaving the court.

MATCH-DAY FLOW

What to do when you arrive

Registration opens at 9:00 AM. The program begins at 10:00 AM. Give yourself time to settle in, complete your arrival checks, and stay ready for the live court board.

1. Go to Player Check-In

Tell the desk your full name and club. Staff will find your retained registration.

2. Confirm your details

Verify your category, partner, and pair slot. Tell staff immediately if anything is incorrect.

3. Complete arrival checks

Sign the hardcopy waiver if needed. Staff will verify it and take a clear player photo.

4. Find your partner

Both players should be present, warmed up, and ready together. A pair cannot start with only one player.

5. Scan the displayed QR code

Open the live standings and your unique player profile. Your profile shows your current standings, next court assignment, and live schedule.

6. Report when called

Proceed to the assigned court promptly. If a referee is assigned, follow the pre-match setup.

Bring these: Your paddle, court shoes, water, towel, any medicine you may need, and a phone for schedule updates. Wear your assigned club or event shirt if organizers have provided one.

TOURNAMENT FORMAT

How the dual meet works

This is a club-versus-club event. During round robin, OCPC pairs play Rally Rebels pairs only. Partners from the same club do not face each other.

Category	OCPC	Rally Rebels	Matches
Novice	6 pairs	6 pairs	30
Low Intermediate	6 pairs	6 pairs	30
High Intermediate	6 pairs	6 pairs	30
TOTAL	18 pairs	18 pairs	90

Why not everyone plays everyone

Each pair is capped at five scheduled opponents. This keeps the event within the available time and prevents an overloaded day.

Balanced categories

Every category has six pairs from OCPC and six pairs from Rally Rebels. Each pair plays five of the six possible opponents from the other club.

Transparent opponent draw

The one opponent each pair does not play is decided through the official draw ceremony. The result is reviewed and locked into the live schedule. It is not based on personal choice.

COURTS AND SCHEDULE

How the day moves

Five courts run at the same time. The calendar is the live court board: it shows both the planned order and what is actually happening now.

9:00 AM	10:00 AM	90	5:00 PM
Registration starts	Program starts	Round-robin matches	Target event end

Your posted time is a guide

Matches use 15-minute schedule slots. A game can finish early or run long, so the next match may move forward or be delayed. Stay close to the playing area when your match is approaching.

Reading the live court board

- **Green** means the court is on time or moving well.
- **Yellow** means the court is approaching its expected time or beginning to run behind.
- **Red** means the match is near or beyond the 15-minute operational target, or another urgent court status needs attention.
- **Warnings** prevent a player from being scheduled on two courts at once and flag back-to-back matches where possible.
- **Live order wins.** Match Control may move, swap, or bump scheduled boxes as court timing changes.

Important

Do not leave the venue without telling your club representative or the joint Match Control team. If your pair is missing when called, the schedule for all five courts can be affected.

PLAYING RULES

Round-robin match rules

The referee or score kiosk records the official result. The posted schedule controls the court order, while the final recorded score controls the winner.

Scoring

Side-out scoring to 11. Only the serving team can score. Win by two, except at 10-10 the next deciding rally ends the match at 11-10.

Operational timing

The schedule expects about 15 minutes per match. The timer helps Match Control manage courts. If a match is ended early, the pair with the higher score is recorded as the winner.

Before the first serve

The referee or Match Control records which club receives the first choice, then confirms that choice, the opening serve or receive, and the starting court end. No coin toss is used in this event.

During play

- Even serving score: serve from the right side. Odd serving score: serve from the left side.
- Round-robin matches do not allow team timeouts.
- A medical timeout may last up to five minutes. Technical, referee, or equipment interruptions are handled by officials and Match Control.
- When an interruption starts, the match timer pauses. It resumes when the interruption is officially ended.
- Respect the referee's call. If no referee is assigned, both pairs are responsible for honest score calls and sportsmanlike play.

How to submit the result

Officiated match: The referee logs the live score. At the end, players review the final score and both sides confirm and sign on the referee device.

Unofficiated match: Both pairs report together to the score kiosk, enter the final score, then both sides sign to confirm it.

STANDINGS AND MEDALS

How pairs qualify

Each category keeps separate standings for OCPC and Rally Rebels. The top two from each club advance directly to medal matches.

1	NUMBER OF WINS The pair with more wins ranks higher.
2	POINTS FOR Total points scored by the pair.
3	POINTS AGAINST Fewer points allowed ranks higher.
4	POINT DIFFERENTIAL Points For minus Points Against.

Direct medal pathway

OCPC #1 vs Rally Rebels #1: Gold / Silver

OCPC #2 vs Rally Rebels #2: Bronze / 4th Place

There are no semifinals. Same-club pairs cannot face each other in the medal round.

Medal-match scoring

Side-out scoring to 15, no match timer, win by two, with the event cap at 19. If play reaches 19-19, one deciding rally determines the winner.

Expected post-round-robin order: Bronze matches begin first on Courts 1, 3, and 5. Gold matches follow for all three categories. The optional Dream Breaker is only considered when time remains. The live Match Control board remains the final source if timing changes.

CLUB CHAMPIONSHIP

Every match helps your club

Each completed tournament match contributes to the overall club score. The club with the stronger final standing is recognized as Champion Club.

Pair standings

Used to identify each club's #1 and #2 pairs in every category for the direct medal matches.

Club standings

Combines completed wins from all categories and shows the overall club race, point difference, and recent contributors.

Optional Dream Breaker

- Only activates if joint organizers confirm that enough time remains.
- Default target is first to 52 using rally scoring. Organizers may adjust the target before play.
- Every rally gives one point, no matter which club served.
- After every four rallies, both clubs switch to their next captain-selected players.
- At the default 52-point target, teams change court ends when a club reaches 26.
- Dream Breaker points are added to the club championship only if the round is activated.

Club representative responsibility

Dream Breaker pairs can be different from regular tournament pairs. Each club representative chooses the rotation, but both clubs must follow their declared sequence once play begins.

QUICK REFERENCE

Play ready. Stay informed. Confirm everything.

Keep this page handy on match day. The live Match Control board and organizer announcements are always the final source for court assignments and timing.

BEFORE PLAY

Check in, verify your category and partner, sign the waiver, have your photo taken, warm up, and watch the live board.

WHEN CALLED

Go to the assigned court with your partner. Confirm the correct opponent and whether a referee is assigned.

ROUND ROBIN

Side-out to 11. Win by two. At 10-10, the next deciding rally wins 11-10. No team timeouts.

AFTER PLAY

Review the final score. Both sides sign on the referee device or score kiosk. Do not leave until accepted.

IF SOMETHING IS WRONG

Stop and ask the referee or Match Control. Do not try to correct another court's device or schedule yourself.

SPORTSMANSHIP

Make honest calls, respect opponents and officials, keep the court safe, and represent your club well.

GOOD LUCK. PLAY WELL TOGETHER!
